Professional Summary

SOC Analyst with 3+ years of hands-on experience in **24/7 MSSP** and enterprise SOC environments. Skilled in **incident response, threat hunting, escalation management**, and SIEM/EDR investigations across cloud and on-prem environments. Strong understanding of MITRE ATT&CK, **NIST IR framework, Cyber Kill Chain**, adversary TTPs, and MDR workflows. Known for clear communication, **mentoring junior analysts**, improving SOC processes, and delivering high-quality investigations under pressure.

- ◆ **SIEM & SOAR:** Google SecOps, Splunk, HP ArcSight, RSA NetWitness, LogRhythm, Logscale, Chronicle (SOAR)
- ◆ **Threat Detection:** IOCs, MITRE ATT&CK, Cyber Kill Chain, Phishing Analysis
- ◆ **Security Tools:** EDR, WAF, IDS/IPS, Splunk, Proofpoint, Zabbix, Halo, ServiceNow, CrowdStrike
- ◆ **Shift Work:** Experienced in **rotational shifts (days/lates/nights)**

Professional Experience

SOC Analyst

SEP2 | Leeds, UK | May 2025 – Present

- Operated within a **24/7 SOC** environment, monitoring and triaging alerts across **Chronicle SIEM/SOAR** and EDR platforms.
- Acted as an **escalation point** for junior analysts.
- Investigated **phishing**, malware, and network-based threats, performing rapid containment and escalation.
- Conducted **threat hunting** using MITRE ATT&CK techniques to identify anomalous behavior and emerging **IOCs**.
- Analyzed logs from firewalls, proxies, EDR, and cloud platforms to determine root cause and assess impact.
- Collaborated with senior analysts to **tune detection rules** and **reduce false positives** across customer environments.
- Maintained high situational awareness during **night and weekend shifts** to ensure uninterrupted monitoring.
- Contributed to continuous improvement of **SOC playbooks** and response procedures.
- **Handling Customer calls** and Halo ticketing as **First-line Support**
- Delivered high-quality **technical support via phone, email, and ticketing systems**, ensuring effective communication with both technical and non-technical stakeholders.

Security Analyst

Atos | Bangalore | Sep 2021 – Jan 2022

- **Achievement:** Reduced **average incident response time by 30%** by optimizing SIEM correlation rules and playbooks.
- Investigated **phishing, malware, suspicious logins, and endpoint anomalies**.
- Acted as the **primary escalation point** for SOC incidents, resolving critical threats within SLA timelines.
- Improved **SOC playbooks** and detection logic.
- Led **post-incident reviews (PIRs)**, documenting root causes and implementing preventive measures.
- Developed and optimized **SOC playbooks**, reducing incident resolution time by **20%**.

- Generated **daily, weekly, and monthly reports** for stakeholders, ensuring transparency in threat trends.

SOC Analyst

HCL Technologies | Chennai | Aug 2019 – Aug 2021

- Monitored and triaged **100+ daily alerts** across SIEM tools (ArcSight, RSA NetWitness, LogRhythm).
 - Performed **threat hunting** to uncover IOCs, integrating them into SOC detection rules.
 - Investigated **network anomalies** (IDS/IPS, WAF logs) and escalated confirmed threats to L2 teams.
 - Created **Standard Operating Procedures (SOPs)** for alert handling, improving team efficiency.
 - Improved ticket closure efficiency, **reducing false-positive** rate from 77% to 20% in a single shift, ensuring SLA compliance.
-

Why I'm Fit for This Role

With **3+ years of hands-on SOC experience**, I thrive in **fast-paced, 24/7 environments**. My expertise in **SOAR and SIEM tools (Chronicle, Splunk, ArcSight, RSA NetWitness)**, **threat hunting**, and **incident response** aligns perfectly with your needs. At SEP2, Atos and HCL, I:

- **Reduced incident response times by 20-30%** through playbook optimizations.
 - Strong communication skills and a collaborative **people-first mindset**
 - **Excelled in shift work**, maintaining focus during nights/lates to ensure uninterrupted monitoring.
-

Education

- ◆ **MSc Computer Science | University of Hertfordshire, UK (2022-2024)**
 - ◆ **BSc Computer Science | Bharath University, India (2015-2019)**
-

Certifications

- **Cyber Security 101 (SEC1)**
- **Security Analyst Level 1 (SAL1)**
- **CompTIA Security+ (In Progress)**
- **Siemplify Certified SOAR Analyst (SCSA)**
- **Splunk 7.x Fundamentals**
